

## Stormwater

Managing stormwater runoff is a large and sometimes complicated task. Inadequate stormwater management can result in flooding, infrastructure and property damage, erosion, poor water quality, and increased financial burdens upon the City of Evans to repair or restore damaged items.

### Hotline - (970) 339-5344 Ext. 281

Report any illicit discharges into the stormwater drainage system or any other activities which may affect stormwater quality. Remember "Keep it Clean, Because We're All Downstream".
