

We Encourage You To Recycle

Recycling reduces your trash volume and it's good for our environment.

Curbside recycling is available to residents of the City. Waste Management will provide a recycle bin to fill with newspaper, aluminum, steel cans, glass and plastic containers. Place the recycle bin next to your polycart and a recycle truck will remove your recyclables.

Recycle service is provided every-other week on your normal trash day.

Waste Management requires a \$20 deposit for the recycle bin.

If you have questions or would like to begin recycling, please call 1-866-482-6319.
